

HEALTH & SAFETY AWARENESS

An interactive training course on working safely.

This SafetyNet **Health and Safety Awareness** course provides users with training on key areas of Health and Safety management, including Manual Handling, Fire, C.O.S.H.H, Control of Contractors/Visitors, PPE, Workplace Assessments & Procedures and Incidents/Accidents. Completing this course on a regular basis will ensure **your staff have the knowledge and information** to undertake their role safely.

The course provides a good understanding of health and safety law including employer and employee responsibilities and will give trainees the **confidence** to remain safe at work and to identify and report hazards.

The course highlights the dangers that staff can face and delivers a positive message to encourage them to take a pro-active approach towards their responsibilities for ensuring the safety of everyone in the workplace.

The “**safety is a state of mind**” and “**no one works to get hurt**” culture is reinforced throughout the course.

- A **cost effective** solution to your training and ongoing assessment requirements.
- **Recorded evidence of training** covering safe working practice and legal compliance.
- **Measurable** progress and achievement.
- **Consistent, reinforced** auditable training.

Having completed the tutorial, a random assessment test is generated and the course records the Learner's progress providing an auditable trail of results and a **certificate** of completion can be printed for successful students.

This certificate provides evidence of the underpinning knowledge required prior to completing a workplace assessment to prove competence.

Successful completion may be used to provide evidence for **Accreditation of Prior Learning for S/ NVQs**.

My SafetyNet courses...

- Have the course customized to reflect your company's corporate identity, site requirements and company policy.
- Delivery of training can be configured to suit individual company IT requirements.
- Course accreditation can either be in – house or external (e.g. RoSPA, IOSH or CPD) depending on your particular requirements.

A COST EFFECTIVE SOLUTION TO YOUR TRAINING

INTERACTIVE SCENARIOS

Regardless of the subject matter, all of the learning material that we develop is designed to engage, motivate and challenge the learner through the use of interactive screens which help to improve trainees' knowledge retention.

We are now enhancing the learning environment within our courses by adding course specific interactive scenarios that encourage the learner into interactive play further improving the knowledge transfer.

The courses and modules that we create can be used for standalone or as part of a blended learning approach and much of the materials have been designed with both purposes in mind.

Well designed learning materials can be used in many different scenarios, maximising your investments.

HEALTH & SAFETY AWARENESS

Course Modules

Module 1

Manual Handling

What is the problem?
What does manual handling cover?
Lifting techniques
Examples of body posture

Pallet handling

Securing pallet loads
Hazards
Safe pallet use

Module 2

C.O.S.H.H.

What is C.O.S.H.H.?
What is C.O.S.H.H. for?
Why should I learn about C.O.S.H.H.?
What are hazardous substances?
What is the Safety Data Sheet?
What does a C.O.S.H.H. Assessment do?

Module 3

Control of contractors and visitors

Contractors
Visitors
Signing in procedure

Module 4

P.P.E.

What is P.P.E.?
What is it for?
Who is responsible?
Maintenance of P.P.E.

Module 5

Workplace

Environment
Work equipment
Electrical
How good is the housekeeping?

Workplace assessments
Fire precautions
Emergency procedures
Slips, trips and falls

Module 6

FIRE

Fire protection

Module 7

Incidents and Accidents

What is an "incident"?
Why do we report/record? When?
To whom?
Spillages
First aid

...training for success

Other courses in the SafetyNet series:

Working Safely, COSHH, Hazard Identification & Risk Assessment, PPE, RPE, Loading & Unloading, Safety in the Office, DSE, Computer Awareness, Manual Handling, Handling & Use of Flammable Liquids, Noise & Vibration, Driving Safely, Fire.
